SPECIAL APPRECIATION

The theory behind CCTI—teaching takes place only when students learn something—and without exception John Dalrymple personifies this idea in that his students have learned not only facts but how to put these facts into use.

Not only is he so dedicated to his students in the classroom but he also displays an unselfish willingness to devote his own time to the promotion of our education.

To Mr. Dalrymple we extend great appreciation for his instruction as a teacher and his sincerity as a friend.
